Quality and Professionalism

FRANKLIN REGIONAL COUNCIL OF GOVERNMENTS

MISSION STATEMENT

The Franklin Regional Council of Governments (FRCOG) provides a broad array of planning, advocacy, and community services, as well as fee-for-service programs serving municipal needs. The FRCOG advocates on behalf of our member communities at all levels to ensure that funding programs and policies respond, and are sensitive to, the rural nature, economic strengths, and human and natural resources of the region.

CORE VALUES

Service:

- ◆ The FRCOG serves the communities of Franklin County individually and collectively. We are committed to serving town governments, municipal boards and committees, businesses, and our citizens. We work collaboratively with other regions and other organizations. Our goal is to improve the efficiency and cost effectiveness of municipal governmental functions and improve quality of life in our region.

Advocacy:

- ◆ We advocate on behalf of our communities and the county at the federal, state and regional levels. We work together to advocate for legislative action, social policy, and governmental programming that recognizes the unique character and conditions of our rural area.

Community:

- ◆ We believe leadership in education, collaboration and capacity building to be important parts of strengthening the individual, the community, and the region and take care to inspire community involvement and democracy. We recognize that a healthy community requires balancing diverse needs such as those of economic development and natural resources protection, or the needs of one community with the needs of the region.

Quality and Professionalism:

- ◆ We provide high quality services through well-trained, technically proficient staff; to offer informed and professional technical assistance; and to be accountable to towns, the public, and granting authorities.
